F1 ADC and row support studies · circuit simulation only
32 ADC cases + 26 row cases · no physical force measurements
ADC buffer · 8 AC cases
Voltage return ratio (dB)
Frequency (Hz)
ADC · 24 charge-step cases
Error from the model's DC buffer endpoint (µV)
ADC sampling capacitance scale
Row command · four load/capacitance cases
Row change (mV)
Time (µs)
case_018
case_019
case_020
case_021
Row load disturbance · ±8 mA, four cases
Row departure from baseline (µV)
Time (µs)
case_022
case_023
case_025
case_024
