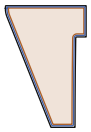
R1.0 — ENPIRE electrode and film cut sheet

A4 · Print at actual size / 100%. Verify the 20.00 mm scale.

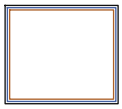
Black: carrier. Orange: copper. Blue: separate conductive-film island.



CH0 nail — contact-side view

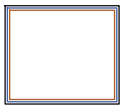
CH1 nail — contact-side view

Pad cut lengths follow the nominal laminate neutral plane.



CH2 · 14.94 × 13.00 mm

CH3 · 16.76 × 13.00 mm



CH4 · 15.07 × 13.00 mm

CH5 · 22.12 × 13.00 mm

20.00 mm

Two copper electrodes and one separate conductive-film island per cell.

Insulate the lead joints; keep solder outside the loaded contact patch.

Mirror the backing as needed so bare copper faces the conductive film.

Joint extensions and edge seals are assembled separately; see the build guide.

Hand-built prototype patterns; not a routed production FPC.

Fit source: Wenli Xiao / ENPIRE; pinned community baseline. See provenance.
